The goal is to create a solid oxide fuel cell (3-10 kilowatt) that can be mass-produced in modular form at relatively low cost. The Sequestration Research and Development program is part of the Presidents Climate Change Technology Program, where 67 million is being requested in the FY 2006 budget. The 22 million funding increase above the FY 2005 appropriation will ensure that the program will be able to test sequestration technologies and in-frastructure concepts needed to successfully deploy these technologies in the most important U. S. regions. The FY 2006 budget request will also sustain core research and development needed for successful carbon capture, storage and monitoring. The most promising approaches will be tested at larger scale. The FY 2006 budget request includes 20 million for the cost of orderly termination of the Oil and Gas...
