K & K Publications. Paperback. Book Condition: New. Paperback. 120 pages. Dimensions: 9.0in. x 5.9in. x 0.3in. The HIV panic of the 1980s prompted CDC and OSHA to mandate the use of natural rubber latex gloves in health care. The increased use of rubber gloves created a latex allergy crisis for health care workers. Articles have been written on the causes, symptoms, and treatments of latex allergy; however, there are few, if any, written experiences of those living with a hypersensitivity to latex. Author Margaret Konieczny gives a historical perspective of glove use in health care and shares her experiences as well as the experiences of others who suffer from a latex allergy in the hopes that her personal story will help others. Margaret takes us through her early symptoms, diagnosis, Workers Compensation issues, and employer accommodations. Latex allergies affect the whole person, from the clothing they wear, foods they eat, places they visit, and their personal lifestyle. It is their emotional well-being in addition to their physical well-being that is affected. Latex allergies are permanent. There is no cure except strict avoidance which is difficult to do; latex is ubiquitous. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
