I.K. International Publishing House Pvt. Ltd., 2012. Paperback. Book Condition: New. Second Edition. 18cm x 24cm. The present book discusses the application of reliability theory/technology to process industries and other systems. It provides system modeling and solution techniques in systematic and understandable manner for complex systems. Maximum types of systems are covered for analysis and maximum techniques are demonstrated by solving complex practical problems. It also discusses basic concepts of reliability, modeling and solution techniques. Almost all types special systems are discussed. Seven important industries and three other special systems are discussed. It is to be mentioned that there is no other book available containing at one place the discussion of such systems and techniques. A newly tested technique, Gupta and Sing Graphical Technique. This technique is useful to the practical reliability engineers without bothering with equations and we obtain many more parameters at once.
