IMPACT OF COASTAL SHRIMP FARMING ON WATER QUALITY AND MACROBENTHOS

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Negative environmental impacts of coastal aquaculture to the adjacent ecosystems seem to surpass its benefits and thus, the sector is receiving increasing criticism. This study, sought to determine the relative changes in some water quality variables in the system as direct effect of shrimp farming. Benthic macro-invertebrates were also used as bio-indicators. Overall results showed that farming system did not cause significant and irreversible changes in water quality of the system....
