Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Pursuant to a congressional request, GAO provided information on the use, distribution, production, and health risks of anabolic steroids and human growth hormone, focusing on the estimated use of anabolic steroids among high school and college students and the adult population. GAO found that: (1) most of the studies that addressed the prevalence of anabolic steroids indicated that high school, college and professional athletes were the primary misusers, while others participating in sports used them to a lesser extent; (2) most of the misusers were male; (3) as many as 6.6 percent of 12th grade males, mostly athletes, and 15 to 20 percent of college athletes used steroids; (4) although a high percentage of weightlifters used steroids, there was little information on the use of steroids outside of high schools and colleges; (5) studies showed that steroids could increase the risk of heart disease, produce liver toxicities, affect sex characteristics and reproductive capacity, cause possible psychological disorders and tendon and ligament injuries, and result in stunted growth in children; (6) although several sports associations prohibited the use of...
